

ESCP CORP.

ESCP Corp. is a Certified ISO 9001-2015 custom metal fabrication shop that responds quickly to customers' needs with Quality Manufacturing and On-Time Delivery. We have two core competencies: We make reusable racks and shipping containers and component parts for OEM's in the military, glass, tire, auto, and agricultural, as well as, construction industries. We use large presses (including brake presses) for metal forming and specialize in deep drawing. We do laser cutting, shearing, punching, machining, weld assemblies. We, also, do powder coat painting, wet painting and CARC painting.
